

# Nutrapress™ CHW

## Organic Chewable Base

## Organic base for chewable supplements

### Product background

Consumer demand for clean-label and organic products is increasing, and the popularity of non-tablet formats like chewables and gummies have also continued to grow. However, achieving a dietary supplement with good functionality when using organic ingredients can be challenging. Pharmachem has created a patent-pending formulation for organic chewable supplements with good compression, flowability, and sensory characteristics. Nutrapress™ CHW organic chewable base is a complete system containing a sweetener, binder, flow aid, and lubricant. We have simplified the challenging task of creating an organic chewable supplement.

### Key features and benefits

- Complete system: binder + sweetener + flow aid + lubricant
- One step, easy to use
- Compatible with a wide range of organic actives and flavors
- USDA certified organic
- Available in sugar and sugar-free versions
- Allergen free, xylitol free, gluten free, non-GMO
- Suitable for vegans
- Kosher and halal compliant
- Patent pending technology (composition and process)

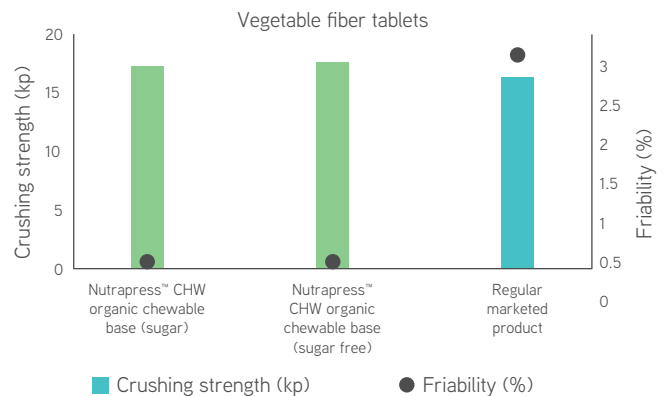

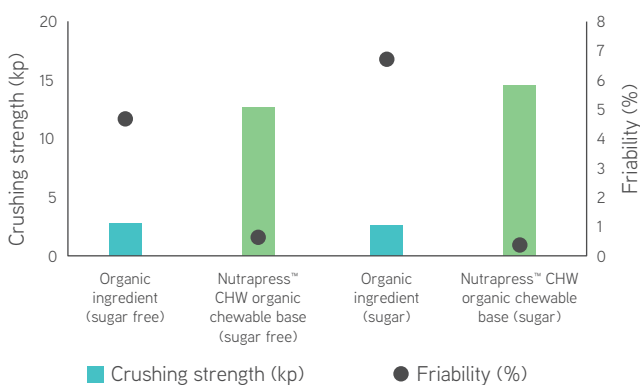

### Product differentiation

Nutrapress™ CHW organic chewable base is made with a patent-pending process. This process provides superior performance in comparison to the same non-processed ingredients. Our scientists have taken the guesswork out of creating an organic chewable tablet.

## Nutrapress™ CHW organic chewable base technical demonstrations

Comparing the same individual organic ingredients vs. Nutrapress™ CHW organic chewable base, Nutrapress™ CHW organic chewable base provides exceptional product performance, enabling robust tablets.

In a comparison to a similar organic market product, Nutrapress™ CHW organic chewable base demonstrates parity crushing strength with low tablet friability.

## Pharmachem Innovations organic portfolio

Nutrapress™ CHW organic chewable base is just one of our many organic solutions. Our organic portfolio of solutions includes Nutrapress™ BND organic tablet binder for supplements, soy-free GPM™ fermented nutrients, and a variety of organic nutrients. Please see your Pharmachem representative for additional information.
